

# ***2017 Fluid Forum Leading Through Change***

## **February 19, 2017**

- 7:00 a.m.      Research & Education Committee Breakfast – Road Runner AB
- 8:00            Research & Education Committee Meeting – Road Runner AB

## **February 20, 2017**

- 7:00 a.m.      Board Breakfast – Road Runner AB
- 8:00            Board of Directors Meeting – Road Runner AB
- 10:30          Fluid Forum Registration – West Hall 3

## **2017 Fluid Forum Program - Salt River 2/3**

- 1:00 p.m.      Welcome and Announcements. Ed Corrigan, Chair, R & E Committee
- 1:10            35 Years of Positive Impact and Progress – What's Next For Our Industry? Paul Fixen, IPNI
- 2:20            Improving Corn Yields and Nitrogen Use Efficiency (NUE) With Late-Vegetative N Applications Using High Clearance Equipment. (year 1 of 3). Dr. Dorivar Ruiz Diaz, Kansas State University.
- 2:50            Break – West Hall
- 3:20            Evaluation of Cotton Yield, Quality, and Growth Response to Injected Liquid K. (year 2 of 3), Dr. Gaylon Morgan, Texas A&M
- 3:50            Using Liquid Sources of Potassium Fertilizer in Highbush Blueberry. (year 2 of 3). Dr. David Bryla, USDA-ARS Corvallis, OR
- 4:10            Fluid Sources for Micronutrients in Starters for No-Tillage Corn and Soybean In Argentina. (year 1 of 3). Dr. Ricardo Melgar, INTA, Argentina
- 4:40            Development of Variable Rate Nitrogen Recommendation Algorithms to Enhance Yield and Nitrogen Use Efficiency in High Yielding Dryland and Irrigated Corn. (year 1 of 3). Dr. Ray Asebedo, Kansas State University
- 5:00            Adjourn
- 6:00-7:30      **Board Sponsored Reception - Fire Garden/Atrium**

## **February 21, 2017**

- 7:00 a.m.     **Buffet Breakfast – Salt River 1**
- 8:10           Welcome and Announcements. Ed Corrigan, Chair, R & E Committee
- 8:15           Industry Update and Issues, Brett Nightingale, CF Industries
- 9:00           High-Yielding Soybeans: Genetic Gain X Fertilizer N Interaction. (year 2 of 3). Dr. Ignacio A. Ciampitti, Kansas State University
- 9:30           Potassium Fertilization for Southern Cotton: New Genotypes & Questions. (year 2 of 2). Dr. Elizabeth Guertal, Auburn University
- 10:00          Break– West Hall 3
- 10:30          Fluid Nitrogen-Sulfur Fertilizer Formulations to Mitigate Sulfur Deficiencies and Maximize Cotton Yields in the Upper-Southeast Coastal Plain (year 1 of 3). Dr. William Frame, Virginia Tech University
- 11:00          Comparison of ATS Placement Methods to Enhance Yield of Continuous Corn. (year 2 of 3), Dr. Dan Kaiser and Jeffery Vetsch, University of Minnesota
- 11:30          **Luncheon, Annual Meeting and Awards – Salt River 1**
- 1:30           Leading Through Change: Looking to the Future. Michael Seaver, Phoenix, AZ
- 2:45           Break– West Hall 3
- 3:15           Balanced Nutrition and Crop Production Practices for the Study of Sorghum Nutrient Partitioning and Closing Yield Gaps. (year 3 of 3). Dr. Ignacio Ciampitti, Kansas State University
- 3:45           Evaluation of Corn Population and Sidedress Applications of Potassium and Nitrogen on Corn Grain Yield. (year 2 of 3). Dr. Robert Miller, Colorado State University
- 4:15           Efficient Management of Water and Nutrient Resources: Assessing the Potential for Drip Irrigation and Fertigation. (year 3 of 3). Dr. Fred Below and Ross Bender, University of Illinois
- 4:45           Wrap-up, discussion and adjourn, See You At The Reception!
- 6:00-7:30     Fluid Forum Reception - Fire Garden/Atrium**
